Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-16 are rejected under 35 U.S.C. 102(b) as being anticipated by German (2,111,343). German discloses a flow controller including a main valve 14, a diaphragm 12 or 15 that operate the main valve 14 and delimit a first gas chamber 16, a three way valve 22, with a gas pipe 23 that connects to an inlet area second gas chamber 7, and also connects to an outlet area third gas chamber 9, and a valve actuator 21.

It is noted that the information disclosure statement filed 1/20/2004 fails to comply with 37 CFR 1.98(a)(3) because it does not include a concise explanation of the relevance, as it is presently understood by the individual designated in 37 CFR 1.56(c) most knowledgeable about the content of the information, of each patent listed that is not in the English language. It is requested that Applicant either provide a translation of the German (2,111,343) reference, or a thorough explanation of the German (2,111,343) reference or a copy of a foreign search report listing the relevance of the German (2,111,343) reference in order to comply with 37 CFR 1.98(a)(3).

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Bianchi teaches the use of another flow controller with a three

way valve 10 that connects to an inlet, an outlet and a delimited auxiliary chamber, but discloses the use of a piston P and not a diaphragm valve as claimed.
